INTERESTS

Computers, writing, drawing, painting and sculpting. Improvisational acting, editing video, music composition, and singing.

I usually compose electronic and acoustic music, with plenty of Keyboards and Guitars, but I never stick to one genre of music, playing all of my own instruments. (Nu-Jazz, Techno, Classic Rock, Ambient etc...) I have full working knowledge of such programs as Sonic Foundry's Acid Pro and Vegas Video, Avid Non-Linear editor, Adobe Premiere 6.0, Adobe Premiere Pro, Final Cut Pro HD, DVD Studio Pro 3, Sound Forge XP, Cubase, and REASON from Propellerhead Software, among others.
